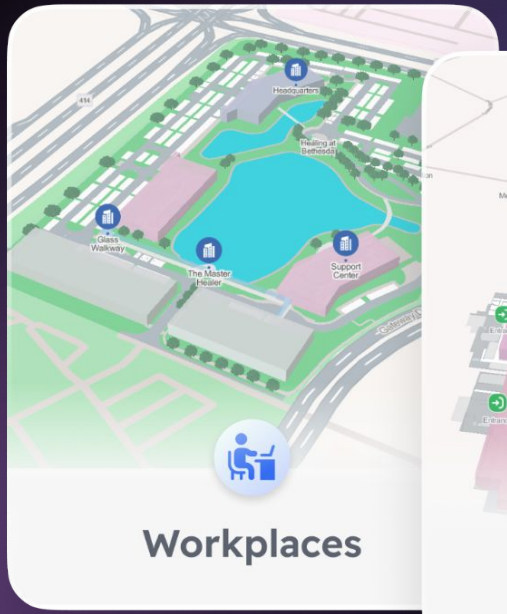
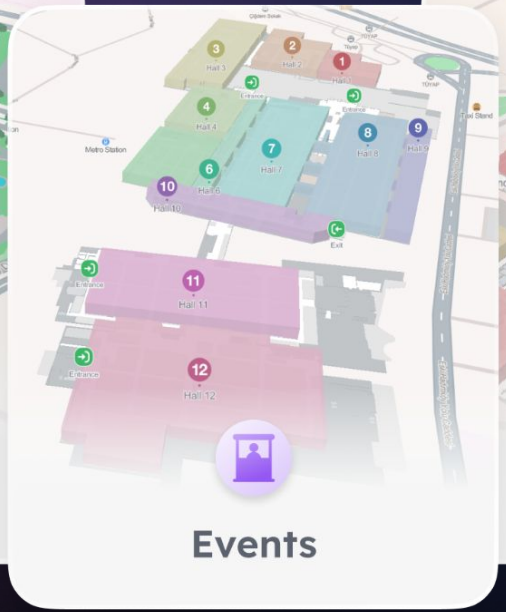
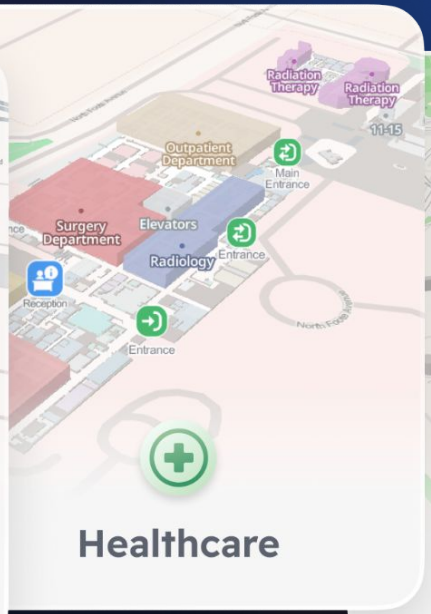
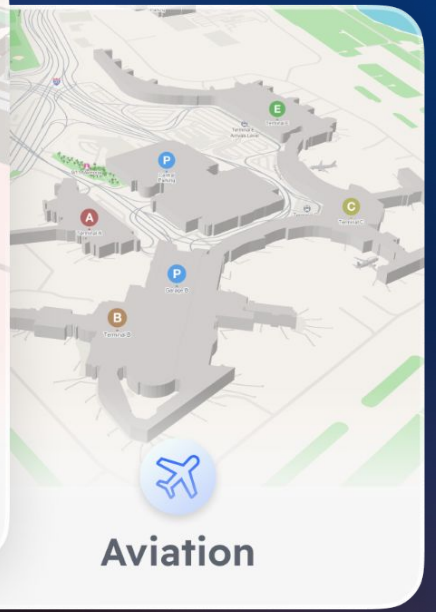
LIVE DEMO





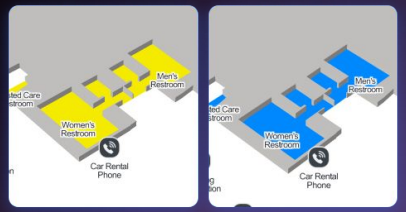




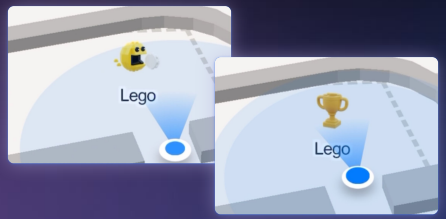
Dynamic POI Styling

LIVE DEMO

Update existing POI styles on the fly



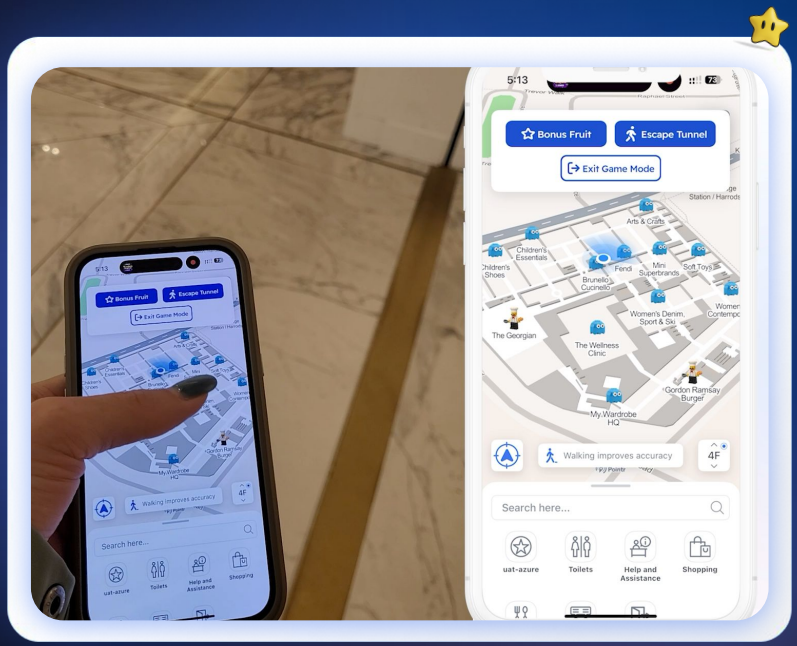
Change POI colors



Replace POI icons

Add 3D height

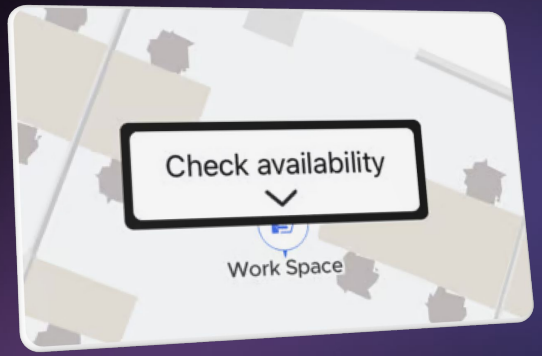
Hide or unhide POIs

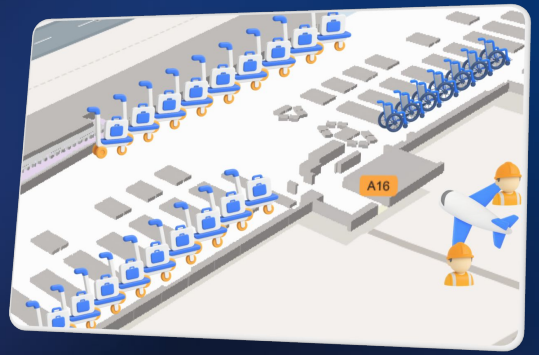


Custom Drawing

LIVE DEMO

Add new objects or interactive markers on top of the ma





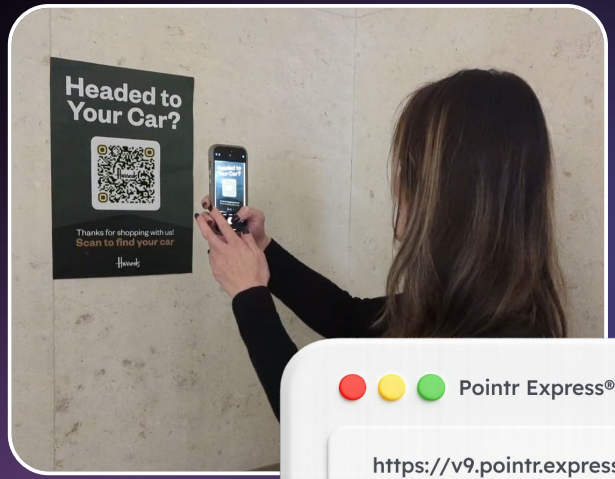
Add an **interactive button/marker** to trigger actions

Add a **landmark** (e.g., statute, kiosk, or art piece)

Add **symbols** for asset tracking

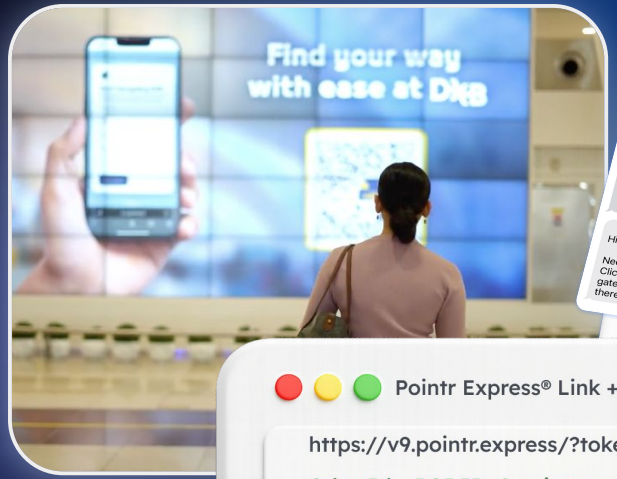
Dynamic Parameters for Pointr Express®

Easily repurpose your Pointr Express® links with dynamic parameters.



Pointr Express® Link

https://v9.pointr.express/?token=<token>



Pointr Express® Link + expressParameters

https://v9.pointr.express/?token=<token>
&destId=<POI ID>&action=wayfinding

Supported Parameters

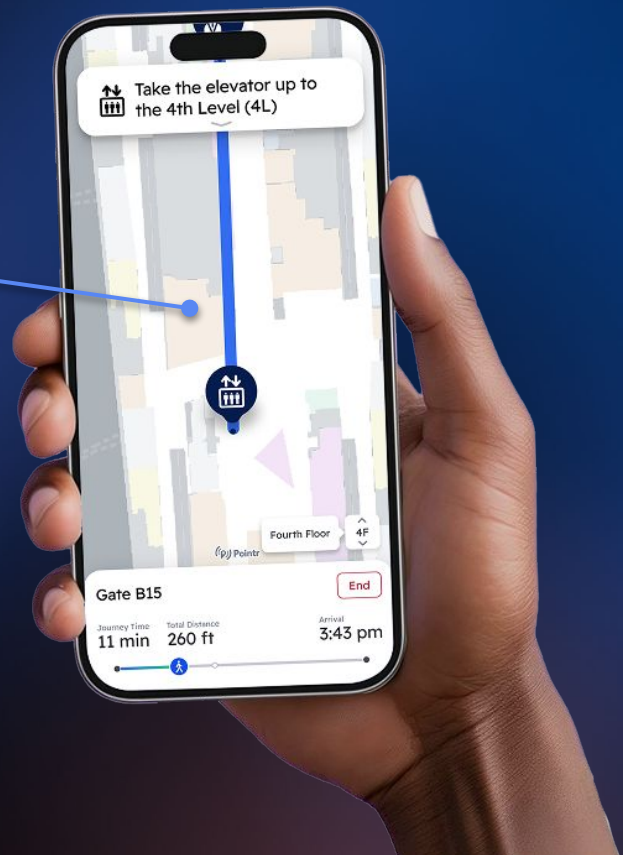
- Site
- Building
- Level
- POI
- Wayfind to a POI
- Action

One-Line Launch for Mobile SDK

- **Common actions launched with one line of code**
- **Auto-start-stop SDK lifecycle**

```
PTRMapWidgetAction.wayfinding(
poi:PTRMapWidgetLocation.poi(
siteId: "SITE_ID", poiId: "POI_ID"))
```

Wayfinding



And more...

- Highlight a POI
- Highlight a Category
- Mark My Car
- Show My Car

Flutter Support for Mobile

- **Cross-platform Plugins:**
  React Native, Cordova, and Ionic Capacitor — with **Flutter** joining the lineup 🎉
- **One codebase** for iOS + Android
- **Core SDK** features available: Maps, Blue Dot, Wayfinding

AWS Hosting Support for Pointr Cloud Stack

- In addition to **Azure**, we now support **AWS natively**
- Built on Pointr's **platform-agnostic**, cloud-native architecture
